G. Kreweras

July 6<sup>th</sup> 1997

to me Lacépède  
75005 Paris

Dear Professor Moano,  
Thank you for your letters of June 17<sup>th</sup> and 23<sup>rd</sup>.  
There is of course a mistake in my  
paper of D.M. 27 (1979), on page 281.  
Everything is correct, except that the  
sign  $\Sigma$  should be replaced by  $\Pi$  in the  
first formula of section 2. I had never  
noticed this elephant among my flies! (nobody has)

It is difficult for me to provide more  
values, since I am retired now. If you  
are to write me again, please note my  
home address.

Best regards

G. Kreweras
